NEW MEASLES VACCINATION PROGRAM

The number of measles cases in WA has been increasing in recent years. So far 16 cases have been reported in 2019.

A new adult measles vaccination program has been announced for West Australian's born during or after 1966 who have not already received two doses of a measles-containing vaccine. It is recommended for these adults to check with their GP regarding their immunisation status, especially those who are planning to travel overseas.

This Vaccine is provided for free through a state government program to those who meet the criteria.

Vaccinations are available at Kelvale, feel free to book in with your GP.

Please call (08) 9495 1230 for an appointment or BOOK ONLINE at <https://www.kelvale.com.au>
